## **COVER LETTER**

Dear Sir or Madam,

I'm referring to your advertisement, which I found on pracuj.pl platform. I have always had a passion for working in the automotive industry, even though I don't have any work experience connected with that branch.

I have been interested in motorization from an early age, and for about two years I have been gradually modifying my car, with the support of friends who have more knowledge than me in this field, which allows me to learn more and more issues related to car tuning. Working as a copywriter in your company would be a great form of translating the abilities acquired on an ongoing basis during my studies.

Thank you for taking the time to review my resume. I look forward to hearing from you.

Yours sincerely,  
Paweł Niemczyk
